## **SYNOPSIS**

After getting a clean bill of health along with a truly annoying dating challenge from her oncologist, Georgia takes “surviving” to the next level by plunging into what is arguably her first date after divorce, all while blogging about it on her mommy blog, “On Georgia’s Mind.” Most of the time Georgia tries to do everything right, but that doesn’t stop her from fantasizing about what she’d really like to do it. Through the help of her loyal readers and her two sidekicks, Georgia gets ready for the most important effing date of her life.

## **LOGLINE**

As is living through breast cancer, a challenging divorce and an independent teenager weren’t enough, but will she survive her first date in twenty years?

## **HOW GEORGIA WAS BORN:**

Co-Creators *Cindy Yantis* and *Kelly Hare* met in an acting class in 1999. Not only did they become fast friends but have seen each other through many of life’s ups and downs. Kelly is a breast cancer survivor, came through a challenging divorce and is the mom of a vibrant, independent teenage daughter. **ON GEORGIA’S MIND** is loosely based on events stemmed from her roller coaster experiences. Cindy was there through all of it. So when Kelly came to her with the idea of creating something uplifting and humorous out of what were some of her lowest lows, Cindy ran with it, creating a new backdrop and world for Georgia. Together they shaped a fresh take on a mom who’s just trying to do everything right while many times doing it wrong, and all while blogging it to the world, or at least to the people who read her blog. **ON GEORGIA’S MIND** hopes to inspire the survivor in all of us.

## **DIRECTOR’S STATEMENT:**

### **BIOS**

#### **Director: Montana Mann**

Award winning director *Montana Mann* graduated with a BFA in film from the prestigious Art Center College of Design. She has won awards for her short films as well as commercial work. Her strong conceptual visual style drew the attention of professionals at a young age, as she is now one of the youngest females to ever be accepted into the DGA. Focusing on compelling characters, Montana enjoys her stories on ice with a twist of satire. Recently **Shoot Magazine** named her one of the top new directors to watch in their 2014 NDX Showcase.

#### **Co-Creator / Producer / Writer: Cindy Yantis**

*Cindy Yantis* is a passionate award-winning storyteller who writes intense character-driven women-centric stories with strong voices, dramatic truths and

smart humor as well as young adult fantasy. Three of her feature scripts have placed in the prestigious Nicholl Fellowship and she's currently in development as writer-for-hire on two indie features. She has produced other short films as well as theatrical showcase productions in Los Angeles, and has served as a story consultant. Cindy earned her BAA in Broadcast & Cinematic Arts from Central Michigan University and studied screenwriting at UCLA. Her mission is to continue to create, develop and collaborate on projects that improve people's lives, even if it just makes them laugh for a bit.

### **Co-Creator / Producer / "Georgia": Kelly Hare**

A producer, actor and singer, *Kelly Hare* is a triple threat originally from Florida. She has appeared in the Garry Marshall-produced stage production of "**I Ought To Be in Pictures**", on TV in **Franklin & Bash**, **The O.C.** and **The New Adventures of Old Christine**, and got her start in film in Adam Sandler's **The Waterboy**. As a singer, Kelly performs at nightclubs in Los Angeles. **On Georgia's Mind** is a personal collaboration keeping with Kelly's intention to create and produce projects that are in alignment with her deep integrity and values. She thanks her family and friends for their support, her nephew Kyle for always making her laugh and her daughter Payton for her love and always being an amazing inspiration.

### **Director of Photography: Mitchell Anderson**

*Mitchell Anderson* was born to two United States Marines. He developed a very early interest in art and an affinity for skateboarding fired up his passion for filmmaking. Mitchell emulated professional skate videos starring himself and his friends. He followed up with a wedding and event photography business. A recent graduate of Art Center College of Design in Pasadena, with a Fine Art in Film degree and a concentration in Cinematography, Mitch has completed over fifty projects, honing skills as a feature length cinematographer. Driven by his creative desires, attention to detail, and dedication, Mitchell continues to push boundaries on all projects, his own as well as that of others.

### **Editor/Co-Producer: Kyle Jones**

Growing up in central Florida, *Kyle Jones* jumped into video production at a young age. Having receiving his BFA in film editing from *Art Center College of Design*, he has continued as an award-winning editor in narrative, documentary, and commercial work. Kyle has been with KGB Films out of Paramount Studios, and was head editor with the national anti-bullying campaign "Friend Movement", with work featured on both MTV and The Huffington Post. It was a pleasure to work with Director Montana Mann again and he is so happy to be a part of such an amazing producing team with *Georgia*.

### **Composer: Geoff Levin**

She brings that along with a solid Entertainment background into the world of Set Design, where her keen eye for aesthetics and details, plus strong work ethic and amenable personality have made her an indispensable asset on every production set for which she has worked.
